

Official Announcement Letter of "3i3s Africa" Launching

International Independent Institute for Space and Satellite Solutions

March,16th,2009

Dear Correspondent,
Dear Future "3i3s Africa" Member,

Executive Summary

We have the pleasure to officially announce you the launching of "3i3s Africa" (International Independent Institute for Space and Satellite Solutions - Africa), that represents the African emanation of 3i3s Europe (www.3i3s.org).

Our main purposes is to gather all the Space and Satellite companies, organizations and people in order to promote such solutions in Africa for projects like : **Humanitarian, Health, Education, ...**

Our common passions are : Africa and Space Solutions, for the aim of providing Africa and its inhabitants with the latest technologies and to contribute to the solving of the unfortunately famous "Digital Fracture".

We invite you to regularly visit our new web site : www.3i3s-africa.org.

Through this web site, "3i3s Africa" aims to be your forum and your place of expression, where you will be able to find numerous information about the Space and Satellite activities in Africa, with breakdown per region.

The Full Letter

Since 3 years, the 3i3s Institute (International Independent Institute for Space and Satellite Solutions - www.3i3s.org) has been intensively working in order to promote the Space and Satellite solutions for the benefit of the numerous people and entities who need them.

Valuable and appreciated projects in fields such as : Humanitarian, Health, Education have already been successfully realized.

Today, 3i3s is represented in Europe and in USA.

Thus, I have the huge honor and pleasure to officially inform you about the creation of "3i3s Africa" that is no more no less the emanation of 3i3s in Africa. The President and Founder of 3i3s, Mr Philippe Boissat, has honored me by asking me to create "3i3s Africa".

My intensive human and business experiences in Africa, as well as my deep love for this wonderful and attaching continent, have led me to obviously accept this position.

I can ensure all of you that I will not count my time and energy in order to contribute to bring all our future Space and Satellite projects on the path of success.

But, also obviously, such successes can be reached only, and only if a solid Team and motivated Members are part of "3i3s Africa".

I aim to ensure that all our actions will be innovative and complementary to all the ones already being performed by talented organizations.

"3i3s Africa" will largely benefit from the tremendous relationships networks set up by "3i3s Europe", and, one of the main allure of "3i3s Africa" is that it is an international organization that will be **managed by African people and by people deeply involved in Africa.**

As we are a non-profitable organization, our whole functioning budget (for events setting up, projects realization, ...) is composed by memberships and sponsorships.

I aim to involve and gather all the positive energies that will contribute to the success of our future projects (**Humanitarian, Health, Education, ...**) and we all know that the needs and challenges are here, not to mention the so-desired wish to reduce and eliminate the digital fracture that Africa is suffering from. Africa and its inhabitants need and deserve to be connected to the Digital Village that is now characterizing our Planet.

We are now ready to start immediately ; our main tool will be our newly created (and under construction) web site (www.3i3s-africa.org) an of course, everything will become possible thanks to the memberships we will have the honor to get from you.

This web site will be your site, your forum, the place where you will be able to express your ideas, your suggestions, your questions, ... (of course, the 3i3s Ethics will be fully respected).

Please, find hereafter some advantages of being "3i3s Africa" Member :

- Be permanently informed of all our actions, events, projects and realizations
- Be able to easily contact and meet all the other "3i3s Africa" Members
- Be part of the 3i3s Global Network and 3i3s Global Directory
- Be part of projects in domains such as : Humanitarian, Health, Education, ...
- Be able to consult all the Dossiers we will publish via our Web site
- Add a new axis of national and international visibility for your Company
- Get advantages for Space and Satellites exhibitions where "3i3s" and "3i3s Africa" take part
- Have your logo on our internationally visited web site
- Benefit from all the "3i3s" and "3i3s Africa" connections (professional, governmental, ...)
- Use our web site as a forum for your Company's promotion (under the full respect of 3i3s Ethics)
- Find various dossiers (whitepapers) produced by internationally recognized Space and Satellite professionals

Please, find attached the official letter for Membership subscription.

I will permanently inform you through two main ways :

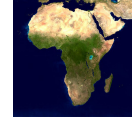

- our web site : www.3i3s-africa.org
- our biweekly Newsletter

In order to optimize the energy presently involved in Space and Satellite solutions in Africa, we will obviously set up a strategy of synergies with relevant organizations, companies and governmental offices.

Thanks to your memberships and/or sponsorships, we will be able to organize very soon our first "3i3s Africa" pan African events.

For your information, as of today, several African companies, several international Corporate companies and several high level governmental offices (Africa, Europe, USA) have already expressed their support and willingness to join "3i3s Africa".

I will personally ensure that most of (not to say all) the African tendencies (geographical, technological, ...) will be represented in our "3i3s Africa" structure (team). We are presently working on building the first Management Team.

We are also setting up the various committee nominations and we are about to nominate the first President of "3i3s Africa" ; **the President and other Senior Committee Members will be African.**

In "3i3s Africa", all the Africa Regions will be represented :

- Central Africa
- East Africa
- North Africa
- Southern Africa
- West Africa

In summary, "3i3s Africa" is merely African :

- **President and Senior Members : African**
- **Headquarters in Africa**
- **Web site hosted in Africa**

All your comments, ideas, suggestions will be welcomed and carefully studied.

I am sure you are joining me in order to wish "3i3s Africa" plenty of successes; these successes will be our successes, for the exclusive benefit of Africa, of African men, women and children.

I personally thank you in advance for joining "3i3s Africa".

Sincerely Yours.

International Independent Institute
for **Space & Satellite Solutions**
(3i3s)
